I Will Draw A Rainbow

Núria Aparicio

Beascoa, March 2023
Hardcover, 247 × 247 mm, 36 pp

From the illustrator of *Crazy Haacks'* comes a tale about friendship, loss, and the passage of time.

Nil, a five-year-old boy, can't remember a single day in his life that he hasn't shared with his best friend, the cat Whiskers. Suddenly, one morning, Nil's parents tell him that Whiskers is gone. Nil was overcome with sadness, and couldn't feel more alone. To make matters worse, sometime later, a new kitten arrives in the family that turns everything upside down.

I Will Draw A Rainbow, the first illustrated collection by Núria Aparicio, was born from the need to explain to the little ones a fundamental part of life: the loss of loved ones. Through a tender and moving story, Núria makes it possible to speak to boys and girls—with delicacy, emotion, and from a point of good humor—about death, pain, sadness and, eventually, how to overcome them.

We Treat Each Other Well

Lucía Serrano

Beascoa, May 2023
Hardcover, 240 × 280 mm, 36 pp

A new book about friendship, respect, and the importance of treating each other well from the author of *Your Body Is Yours*.

We mustn't strive to be friends with everyone. But we must treat people well. Do you know how to do it?

This book by Lucía Serrano starts from the fact that we are all unique and different; from there it explains how we relate to others. Sometimes relationships are calm and serene, but other times we can feel bad about what others do. Or maybe we are the ones making someone else feel bad?

Based on a series of rules of good treatment, the book aims to explain what we should do. Although it is not mandatory to be friends with everyone, we must know how to get along.

After *The Invisible Thread* and *The Hidden Fountain*, Miriam Tirado is back with a new picture book that encourages us to embrace our feelings and sensitivity.

It was as if he could touch the sky with his hands. He often wondered if that sensation had a name. Happiness? Peace? He was sure that it was something even stronger than that.

The dreamer family, the Sunday family, the long-distance family... Every kind of family has a place in this new picture book by Raquel Díaz Reguera.

With her trademark illustrations and wonderful writing, Raquel Díaz Reguera brings all kinds of families to life in this new book, *Families from A to Z*. Welcoming families, Sunday families, and dreamer families are all depicted inside. All of them unique and different, but all full of love. A fantastic picture book for reading with the family or giving as a gift; parents and children alike will see themselves reflected in one or several of the families featured in these pages.

Because there are as many families as there are ways of being, and in the end, love is all that matters.

- Another addition to the series that includes *Grannies From A to Z* and *Grandpas from A to Z*, this time putting all the members of the family in the spotlight.

Familia Acogedora

Cuando llegas al hogar de una familia acogedora, aunque sea de visita en cualquier momento de día o noche de que sus miembros se valen toda la vida respaldados para hacer un buen punto a ellos. Las Familias acogedoras son así: aunque no se hagan visto y no, sus ojos pasan que te escuchan de toda la vida como que están dispuestas, desde el primer momento, a que te sientas como en tu propia casa. No basta en donde caben dos, cubren tres... ¡y los que llegan felices!

¿Cómo reconocer a una familia acogedora? Fácil: apenas se hacen presentados ves que ya te han puesto un plato en la mesa, te han hecho un buco en el sofá, te han abrazado muy fuerte y, a lo que te disculpas, ya te han ofrecido un capullo de almora y unas galletitas de su casa.

Los gustos de una familia acogedora como grandes cosas, lo más importante es que se sienten de sentirse cuando y preguntar. Y aunque son transparentes, tan acostumbrados al calor del hogar, cuando sales de su casa no puedes olvidar que el mundo es feo y frío, la seguridad que les da el afecto de los suyos los protege, aunque juegan fuera de casa, no sólo imagines en otros miembros cuando ellos se inclinan con orgullo de la gran vida adelantada que a ellos les falta.

—¿Se puede saber por qué no me has dicho lo del críolo? —
—(Por qué grito, Jacobi —Antonia Amada — ¿¿¿?)
Mi hermana intentó alertarme el primer día, pero yo se lo impedí agarrándole la muñeca. Aunque más tarde no podía compararme con las de mi padre, traté de impresionar la misma determinación. Aquella que me había sido capaz de mostrar con Goz. Luego la traté hasta la muerte sin más explicaciones.
Aquel día, comimos los dos solos, como dos niños perdidos. Después de cambiarme de ropa, calenté un cuenco de arroz blanco y un poco de tortilla en el microondas y lo planté frente a mi hermana.
—(Por qué se pelean? — intentó ella, desentendiéndome la comida seca y amarillenta con el tenedor.
En vez de contestar, saqué un cuaderno cualquiera de la mochila y lo planté sobre la mesa. Luego escogí un rotulador y lo hice correr con firmeza sobre una de las últimas páginas, que reservaba para hacer garabatos. Más que trazarlo yo, parecía el quien me guiaba a mí. Como si estuviera copiando unas palabras que de algún modo ya estaban sobre la hoja suelta.
Fue mi mamá, ciega e insul, la que dibujó aquella figura monstruosa que iba surgiendo en mitad de la página. Al mismo tiempo, las voces del dormitorio fueron perdiendo intensidad. Más tranquila, Antonia pasó un dedo gusano sobre el papel.
—Tu miedo —dijo con entusiasmo—. ¿Es un hombre o es animal, Jacobi?
—No cometas, pero es un animal que de inspiración usará a la altura dos veces afiladas.
Fue así como nació Lobo.

B de Blok, March 2023
Hardcover, 140 x 205 mm, 208 pp

Miriam Tirado, author of the success of *The Invisible Thread*, makes the leap to Middle Grade with a series set to become a benchmark for adolescence.

Goa is a girl like any other but, overnight, her world turns upside down. Her parents are separated! And, suddenly, she will have two houses, her father a new partner and she... a little brother! There are many things for a 12-year-old girl, who just wants to be with her friends, go to camps and take advantage of the little moments that they let her spend with the tablet to chat with the boy she likes. So when she has a moment, she shares her thoughts and emotions in a video diary that she records for herself. Because when you're 12, it's easy to think that no one can understand you... and that you wish life had an instruction manual.

libre. Era el mes de abril, el 25 para ser exactos, y se notaba en el ambiente que cada vez faltaba menos para el verano. La casa de Goa era de las de antes, de las que todavía no han sido derribadas para construir un edificio nuevo de ocho plantas, y que sobreviven en las ciudades sin que nadie sepa cómo. Pero era acogedora. Estaba decorada con gusto y, aunque fuera pequeña, tenía algo que a Julia, que lo había comprado hacía tantos años, antes de tener a Goa, le encantaba. Aquel día, en el patio, todo el mundo miraba a la niña de pelo rizado y gafas de color azul marino con aquella cara que pone la gente en los cumpleaños cuando alguien va a romper las velas.
—¡Qué vergüenza! —pensó Goa, que no se iba a poder librar de los treinta fotos que su madre estaba a punto de hacerle. Cerró los ojos y comenzó a pensar. ¿Que difícil elegir solo un deseo? ¡Per, qué buena era! ¡Per, así y así tres! ¡Per, cuánto, ya puestos! ¡Total, si deseo esa galleta, ¿por qué solo uno?
Siempre le había costado elegir. Antes de decidirse, pensaba en todas las variables del mundo y, entonces, todavía le costaba más elegir una de ellas. Le empezó a pasar cuando era pequeña y, aunque ahora ya era mayor y gestionaba mejor algunas cosas, le seguía pareciendo difícil decidirse.

La estrella de mar con nombre de serpiente

En las profundidades del gélido Mar del Norte vive un animal poco conocido. Se necesita un submarino para ir tan abajo porque no se puede llegar buceando.

A diferencia de lo que esperábamos encontrar, no se trata de una serpiente, sino de una estrella de mar. Es *Midgardia xandaros*, especie descubierta gracias que los de cualquier otra estrella de mar conocida. Comparte nombre con la serpiente de Midgard que mencionaba Thor, porque también vive en el océano a una gran profundidad y por sus notables dimensiones.

En esta serpiente se dice que algún día se arrojó fuera de las aguas y aterrizó en Chile. Por ahí se pensaba como el Ragnarok, o sea, la batalla del fin del mundo.

«Thor es un poco bromista» — se le Midgardiano. Yo sé que no soy la serpiente que tanto le asusta y, aunque así fuera, tampoco tengo intención de salir a encontrarlo. Yo tengo bastante con la contaminación del aire. No, gracias, yo me quedo aquí abajo tan tranquila.

Midgardia es un ser de las profundidades del mar y aun así está informado sobre lo que ocurre fuera. Quizá debería subir y charlar con algún genio que sepa más sobre este asunto.

#1 Dinosaurs & Prehistory

BAJO EL MAR

¡Allí no había ningún dinosaurio! Teo, Mar, Alejo y Bruna buceaban en medio de la oscuridad, dentro de una burbuja. ¡Fuera había agua! Agua oscura y profunda, un mar que les rodeaba por todos los costados. Pero en aquel mar no había dinosaurios, ni tampoco peces!

¡Hola, pececitos! ¡Jopé, ¿por qué no hay pececitos?

¡Tampoco hay dinosaurios!

¡Pero eso no es un dinosaurio!
¡Es un tubo!

¿Qué son esas cositas que se mueven?

ESTOS TUBOS SE LLAMAN FUENTES HIDROTERMALES

POR ELLOS, EL PLANETA SOLTABA CALOR Y GASES. IGUAL QUE EL TUBO DE ESCAPE DE UN COCHE!

LUCA. EL ANCESTRO UNIVERSAL

Vivió hace 4.350 millones de años, en la era Paleozoica.

Se llama así por las siglas en inglés de "Último antepasado común universal", es el tatarabuelo de todos los seres vivos de la Tierra.

HABILIDADES: convierten el calor y los gases del agua en energía. Para LUCA, el agua caliente es como un batido riquísimo!

Los puntitos eran bichillos minúsculos. ¡Bacterias! Las primeras bacterias nacieron aquí, en el fondo del mar, y vivían y se nutrían del agua hirviendo, de los gases y minerales. Fueron los primeros seres vivos y los más sencillos. Todos los demás han evolucionado a partir de ellas, y los científicos les pusieron el nombre de «LUCA».

Para entender de dónde vienen los dinosaurios (y nosotros), hay que empezar mucho antes, y todo empieza aquí. Bajo el mar, hace más de cuatro mil millones de años. En el fondo del mar había agujeros y tubos por donde salían chorros de agua caliente. A su alrededor, en la corriente, flotaban puntitos diminutos. El agua hervía porque bajo la roca había lava; el planeta se acababa de formar, estaba recién salido del horno.

+ CICLOMATES

El ciclo menstrual suele durar entre cuatro y cinco semanas, pero puede haberlo más largo o más corto. Durante los días que siguen a la menstruación, es muy común tener dolores irregulares, es decir, que la regla no venga una vez al mes, sino que se demore más o marche más en lugar. Para saber más sobre cómo funciona tu cuerpo, qué es lo normal y en qué día se comienza un bebé, es imprescindible saber hacer algunos cálculos matemáticos. ¡Juntos a practicar!

Antes de empezar, reflexionemos algunos datos sobre el ciclo menstrual que te serán de gran ayuda para resolver estos retos matemáticos.

EL CICLO MENSTRUAL TIENE UNA PARTE VARIABLE Y OTRA QUE SIEMPRE ES IGUAL DE LARGA. LA DISTANCIA ENTRE LA MENSTRUACIÓN Y LA SIGUIENTE OVULACIÓN ES LA PARTE DEL CICLO QUE PUEDE VARIAR, AUNQUE SIEMPRE DURARÁ UNAS DOS SEMANAS. LA DISTANCIA ENTRE LA OVULACIÓN Y LA SIGUIENTE MENSTRUACIÓN ES SIEMPRE ESTABLE: UNOS 14 DÍAS.

TIPO VARIABLE	OVULACIÓN	TIPO ESTABLE
1 día	21	35
2 días	19	28
7 días	7	21

LA REGLA Y EL CICLO MENSTRUAL + 4

1. Si a Julia le viene la regla entre el 10 de abril, ¿cuál día es?
2. Si la regla comienza el día 12 de mayo, ¿cuántos días le ha durado esta vez?
3. Si a Julia le ha llegado la menstruación el día 27 de noviembre, ¿cuál es más probable que tenga la regla por Navidad o por Nochebuena?
4. Y si sus compañeros el 20 de febrero y su última menstruación llegó el 15 de febrero, ¿cuántos días le ha durado esta vez?
5. Si María está embarazada y le viene la última regla el 15 de agosto, ¿en qué día es más probable que el bebé y el embarazo se le terminen?

Did you know that we dedicate an average of 1,000 hours of our life to shaving? Maybe the time has arrived to do other things with our time.

Our time is extremely valuable and perhaps it is not necessary to invest a good part of it to remove our hair. Instead, we could dedicate ourselves to much more interesting things like learning to communicate only through memes, using the Ouija to contact the spirit of Marie Curie, or, I don't know, even tear down the patriarchy.

Because there is nothing that a woman with time on her hands, and hair (or not) on her legs, cannot do.

Affective Sex

Sonia Encinas Author

 Softcover with flaps, 160 x 230 mm, 160 pp

Self love, relationships, porn, consent and above all... pleasure! An inclusive and positive sexual education guide that solves all the doubts of adolescents without taboos.

With an honest style and without mincing words, Sonia Encinas explains everything we need to know (and nobody dares to tell us) to enjoy our sex life without fear or taboos.

How can I learn to love my body? Is it normal to have sexual fantasies? Is it bad to masturbate a lot? Is it bad to never masturbate? How can I have relationships that make me feel good? And, above all: why doesn't anyone talk to us about pleasure?

SEXO AFECTIVO

2 Por otro lado, se habla de -sexos para referirse a nuestra realidad biológica, esa que aúna fisiología (genitales internos y externos), cromosomas y hormonas sexuales.

Organicemos un poco esto de la biología:

	SEXO FEMENINO	SEXO MASCULINO	INTERSEXUALIDAD
GENITALES INTERNOS	Vagina, útero, trompas uterinas, ovarios, glándulas paravaginales y glándulas mullerianas.	Testículos, epidídimo, conducto deferente, vesícula seminal, próstata, uretra, glándulas bulbouretrales.	Puede haber combinaciones de los dos anteriores.
GENITALES EXTERNOS	Cloaca, ano, orificio vaginal, labios externos, labios internos, etc.	Pene (prepuce, glande, coronado, escroto) y ano.	Pueden presentarse tanto uno como otro, ambos o no ser clasificables en ninguno de estos anteriores.
CRROMOSOMAS	XX	XY	Puede haber combinaciones intermedias.
HORMONAS SEXUALES (dependen de los genitales)	Se producen en los ovarios: estrógeno y progesterona.	Se producen en los testículos: testosterona.	Dependerán de su genitales predominante.

16

¿Qué es el sexo?

Por cierto, hablando de genitales, un dato importante sobre la vulva: Es increíble la cantidad de veces que escuchamos hablar de vaginas cuando se está haciendo referencia a la vulva. Y esto muestra el enorme desconocimiento que las personas arrostran acerca de la sexualidad y de su propia anatomía. ¿lo bueno? Tú ya no cometerás ese error.

¡BRAVO!

Fucking Fat Feminazi

Penny Jay

Montena, May 2023
Softcover with flaps, 150 x 215 mm, 320 pp

| BITCH. FAT WOMAN. FEMINAZI.

When in January 2019, Penny Jay visited the La Resistencia program to talk about her podcast, Riot Comedy, she had to endure weeks of harassment on the networks, with niceties such as “fat”, “whore” or “feminazi”. But this wave of insults was just the tip of the iceberg of a life in which she has always broken the rules: for being fat, for being funny, simply for being a woman and existing.

Mixing episodes from her life with paragraphs on fatphobia, misogyny, the hypersexualization of women or relationships between parents and children, Penny Jay presents a scathing and irreverent portrait of today's society, with her usual acid humor, in which she does not leaves headless puppet.

Ale Agulló, better known on social media for her humorous tiktoks like CaraCuadrada, teaches you how to become independent without (dying) from hunger

The 'square face' filter has given much more than anyone imagined, and already accumulates more than three million followers on the platform.

Ale Agulló (@aleagullosm) is not the first to think of doing scripted skits with her family to entertain the TikTok audience, but she is one of the most successful doing so.

Now she reveals to us what his other passion is apart from making people laugh: cooking. In this book, Ale shares with her followers real recipes that are easy and fun to prepare for anyone who wants to become independent or start adulting without starving to death in the attempt.

- With fun pictures of the recipes result!
- Easy and useful for those who leave the family nest!
