IRIA & SELENE

Iria G. Parente and Selene M. Pascual are two authors of youth literature with almost twenty published titles that mix fantasy, science fiction and contemporary romance. Among their works are *Anne No Filters*, *Red and Gold* or *Alma and the seven monsters*, all of them very different books and of different genres, but with a common core: the importance of emotions and very real characters. Their very first sel-published novel, *Paper petals*, is one of their most ambitious and personal works, PRHGE is republishing now.

Anne Shirley has always dreamed of being a writer, and even if no one knows it, she already is one: online, Anne is known as Lady Cordelia, and her fanfic about *The Mirror's Knight*, a TV show based on Arthurian legend, is adored by her fanbase. Only Diana, Anne's best friend knows her secret. At least until we meet Blythe, the new fanfic writer who manages to beat Anne's readership record. Gilbert Blyth challenges Anne to face her insecurities and feelings, both for him and for her best friend Diana.

Dani is a normal girl. Or at least she was until a book swallowed her up and brought her to Albion, a dimension governed by a noble class that imposes their own rules, cleverly disguised behind fake smiles and midnight balls. A world in which visitors like her are mere servants at the ruling class's mercy. Marcus is the heir to the Abberlain family and the only person with the ability to take Dani back home. One false step, and the life Marcus could come tumbling down. When Dani and Marcus cross paths, they will make the hierarchy of Albion shudder.

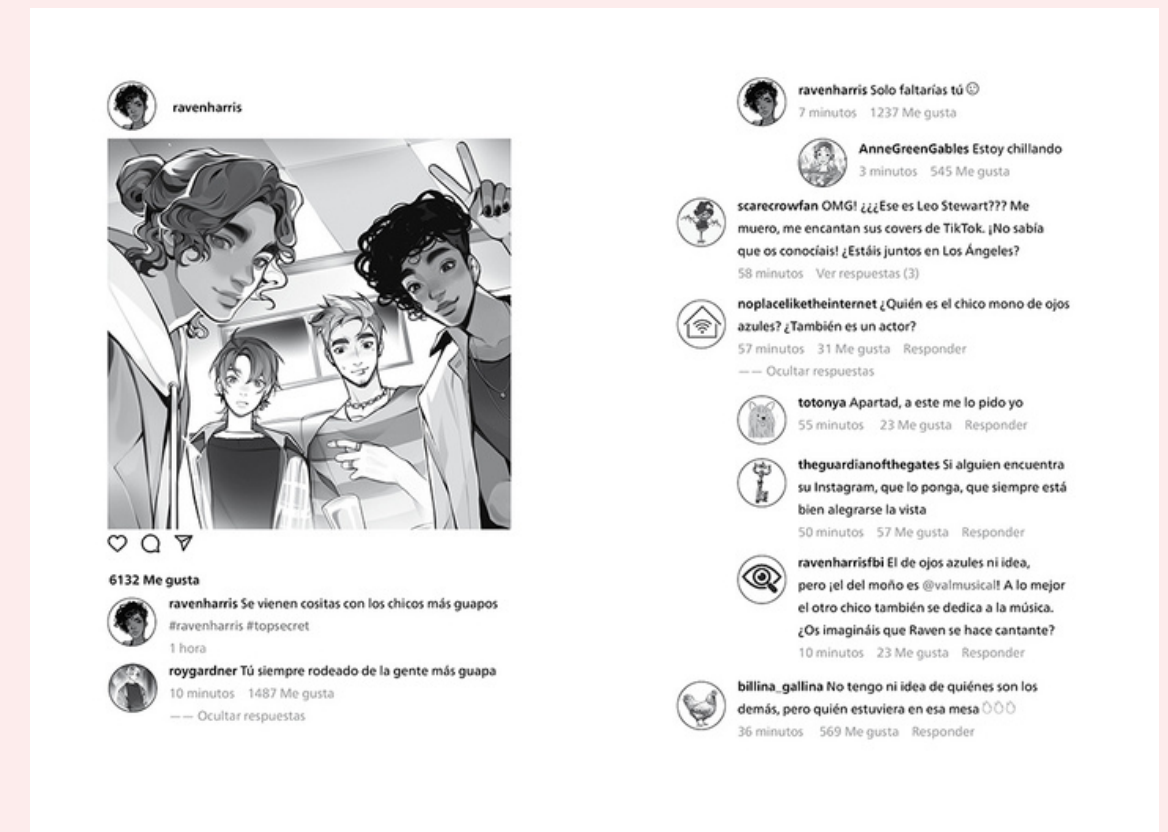

WE WILL BE THE HURRICANE

But Dottie has a chance to be part of a music group if she impersonates Theo. The idea seems good until she meets his bandmates: Raven, the actor with a reputation for being an airhead; Leo, the TikTok star, and Val, who only thinks of reaching the top. Together they plan to sweep the music world like a hurricane, but...

SHINING SCARS

Nube de Tinta, October 2023
Softcover with flaps, 140 x 213 mm, 256 pp

A beautiful crossover novel by Andrea Tomé about eating disorders, in the vein of her success *Corazón de corazón*.

A beautiful crossover novel on eating disorders, with all the know-how of Andrea Tomé and a love story that you will not be able to forget.

Everyone wants to know how Zoe does it. Her family, that cute boy she always runs into at the ice rink, and her classmates. They want to know exactly how many kilos she weighs on her scale and how many calories she consumes per day, and if she doesn't she's worried about not waking up the next morning. They want to know why, but they don't want to hear the truth, because the truth is not sensational. The truth is...

“The limit is on an ice rink. It's October my seventeen years, carols sound everywhere public and I want to be a real girl. a girl from I really wouldn't even think about the fries they shared her classmates but she didn't dare to try, neither would she have asked her sister for all the details about donuts from the new cafeteria, she couldn't even estimate how long she has to skate exactly in order to burn enough calories to feel good but not enough to falling asleep on English homework.

And of course, a real girl wouldn't bend over half of the municipal ice rink at rush hour because The math has betrayed her and she is getting dizzy. A real girl wouldn't cause a triple collision with some hockey players.

«I hate myself because I feel SO HUNGRY / because I don't I know how to function in public no matter how hard I try/because "I am not a girl but the carcass of a girl." A sudden, searing pain shoots up from my wrist. up to the elbow, but it is drowned under the "Shit!" the "Fuck!", he "Did you hurt yourself?" and the "Hey, does your father it's not...?".

I lean on the fence to get up (a whiplash of pain runs through my shoulder, my back).
-I'm fine. You don't know my father. I'm fine. Have I have to go study. The three hockey players look at me like I'm done to give me a stroke.

-Are you OK? —one of them, the blonde one, asks me although I just assured you (twice) that it is. To this, his friend intervenes (redhead, obscenely high):

—Your hand is starting to swell. And the dark one, who looks like he doesn't know what to do with the situation:

—But what were you doing lying on the ice? Do you find yourself evil?

"I'm fine," I repeat. Really. And I have to go. I'm so sorry... for all of this.

I head as quickly as I can to the ticket office, without worry about putting the protectors on the skates or about the shrill noise that the blades make against the floor of metal.

"It. Have. All. Low. Control".

Have you ever noticed that your body doesn't respond to you? That the head goes in one direction but the tongue moves in the opposite? That your feet don't keep up with your thoughts? I think I'll sit in the hallway to regain my strength and regulate my breathing, but when I open my eyes I am lying down rest on one of the wooden benches in front of the ticket offices and at least ten guys from the hockey team are watching me, besides the janitor. A waitress at the track cafeteria hands me a hot chocolate. I can't/don't want to accept it. They know me, at least they must have prepared it with oatmeal milk and not with standard whole milk, which people drink. Normal people who don't care what milk they use to prepare the chocolate.

“

MALENA

Despite everything, she liked Paula. She was one of those people that everyone liked and that had never had a conflict with anyone. She listened, smiled and invited to open our hearts and trust her.

—It was very strange, I was hoping they would screw me up, but they ignored me... as if I were invisible, you know?

—Yes, Lara has to change victims, if not, she gets bored.

—Today I was born again.

—I'm happy for you, said Paula.

—But I'm sorry for the new one.

—“Alex,” Paula sighed moved, “poor Alex...”

ALEX

Paula did not let herself be carried away by what the majority did. She was an independent and special girl. She was the only one to be kind and call him by his name.

He liked her a lot. He liked how she looked at him, how she chewed on her pen when she didn't understand the problems of math, how she never completely closed the backpack and how she pronounced all the letters of his name.

The show ended there and Alejo breathed a grateful sigh. The students, disappointed by the outcome, began to leave, but Paula continued by his side in silence, to make it clear that she was not afraid of anyone and that she was his friend. Alex felt the desire to kiss her, but he didn't want to do it. Ridiculous. Paula was cold. He was in love?

—Half naked and with his sweater tied around his waist. He took a deep breath. It would take him centuries to forget that traumatic day.

“I'm so sorry,” Paula muttered, her eyes teary. “If you wait in the bathroom I'll bring you a tracksuit of mine and so you can go home. Maybe it's too small for you... She looked very affected and Alex rushed to calm her down.

—Thank you very much, but it's not your fault. Absolutely! You are the only one who has helped me.

Paula smiled gratefully, although she did not relax.

—They have gone too far, it has been going on for a long time and you... you don't deserve it, Alex.

PAULA

—We have received a letter from your tutor. You have been harassing a colleague. You've gone too far, Paula. Her parents understood each other wonderfully when they got together. However, that one was unfair.

—He was naked! They had taken his clothes! I only...

—Even worse!

—The more you talk, the more you ruin it! How could you do this to Lara! Paula counted to ten before feigning calm.

—What has Lara's mother told you?

—You know perfectly well that you accused Lara of having messed with that boy, while everyone knows that this boy's been harassing her. She can't understand that you, her friend, are doing this to her.

—We are not friends of hers and I have not done anything to her!

“Before I finish speaking I have already opened the door, which causes the tinkling of a small bell to warn you that you have entered cliente. The first thing that greets us is the strong smell of incense of the premises. Cough; The truth is that it bothers me a little scent. "Go ahead," we heard an unknown voice, "don't be afraid." to get closer In fact, I don't get the impression that it is the query of a psychic if it weren't for what we've looked at on the internet, I would have believed that, in effect, it was a coaching business or even the office of a psychologist. —Delighted, I am a witch of the lineage of those who died at the Salem trials. —She smiles at us behind the counter—. I'm here to serve you. Martha snorts under her breath in a mocking tone, which provokes make my cheeks blush. Can't she behave a little more discreet way? She is embarrassing me with her attitude. "I would like to know how my future is going to go," she commented. However, the witch remains doubtful. -Are you sure? Because I see that she worries you more about the past. I am speechless at how quickly she said that. "It's not that," she replied, embarrassed. It's just that I'm... "I'm sure she'll tell anyone," my companion whispers to me in the ear-. "People usually come with their hearts broken." —In you, redhead, I see a skepticism full of resentment. Don't you worry, I'm not like that fake witch who scammed your grandmother. I am a real one.

Now it is Martha who is silent. The witch has nailed it: that's exactly what happened. Her grandmother spent a fortune on calls to a person who promised to put her in touch with her husband from the Beyond.

—So—the woman points at me with her eyes—tell me about that past that keeps you awake.

"I've been with a guy for almost four years and we broke up months ago. I wasn't very happy at that time and I'm not very happy now. I can't stop thinking about what would have happened if..."

—You would have made different decisions.

I swallow, uncomfortable. I can't help but think about the conversation with Martha the day before.

"I imagine," I answer, looking down. But, well, I I want to know if the future..."

—And how much do you want to live, what would have happened if you had acted differently? —She interrupts me.

—Eh... —I remain thoughtful before her question—. I'm sorry, but I have lost myself. How to "live what would have happened"?

The witch sketches a tender smile. It's as —In your eyes I see the desire to be able to know different paths. To know what could have been, but not only to know it: to live it Live other realities, even other loves that stayed. I'm here to help you," she continues. So I can you offer your consciousness to travel in time so you can discover it by yourself. Well, actually it's a jump between dimensions. If you want, we can do a regression so you know how it was, one of your past lives. And, of course, what were your great loves. What do you prefer?

IMPERFECT CHRISTMAS

Montena, November 2023
Softcover with flaps, 150 x 215 mm, 480 pp.

A fun, exciting and beautiful Christmas story with a protagonist who hates Christmas but will be captivated by its magic during her holiday job at the Merry Hotel with a very intriguing boss...

Olivia Rivera hates Christmas. And Noah Merry. Noah Merry hates that Olivia is so stubborn, proud and spiteful. And he also hates that she insists on making his life difficult without caring that he is her boss. 25 days. 25 Christmas tests. A TikTok account broadcasting everything live. Trouble, deception, reproaches and a good portion of resentment. What could go wrong?

“

OLIVIA

“What don't you understand, dear?”

—Nicholas asks to Avery.

It's hard to get mad at him, I think as I watch him caress, distracted by the thick white beard. He's like a fucking Santa Claus. Next to him, his wife, Nora, is just as sweet and kind, she does have a maternal look and a typical movie grandmother's smile. Damn, they're taking advantage of that, I have no doubt.

"What Avery is trying to say is that he doesn't understand that we have to spend time together outside of our working hours," I intervene to help my colleague. Silence settles in the room in a somewhat uncomfortable way, I have that gift. Maybe I'm a little harsh speaking, but I like it.

—No, what I don't understand is the calendar thing. I don't mind spending more time with you!

I roll my eyes as many smile at him.

—The problem is that we noticed that there was no Christmas spirit. Except for Roberto, who delighted us with a series of new cocktails. The Merry Hotel has always been a family business. We have families with small children who deserve to enjoy these holidays properly. We are in New York, guys! The city of Christmas!

—It's a joke, right? You can't force us to do Xmas stuff, that's not in the contract!

—Come on, we can include some activity for your birthday and celebrate it!" I was born on December 25th and my father loves to remind everyone that I was his Christmas present.

—We are not going to do absolutely anything for my birthday.—I tell him very seriously.

"It's a shame you don't want to celebrate," he says then, my boss-. I still remember that year when your father bought you that pretty elf costume. Noah Merry has dark brown hair and although I'm sure even though he uses a good hairspray, he always looks casual. He has blue or gray eyes, depending on the day, beard of various days, a rogue smile very in keeping with his personality that brings out shine every time he wants to achieve something or bother someone. He nails his outfit with a dimple that looks too good on him, in my opinion.

NOAH

I close the door and watch the way Olivia drills me with her look. I should say I'm not having fun, but that'd be lying. She has dark eyes, long brown hair, almost black, pretty impressive full lips and a fucking perfect nose. She entertains me by pissing her off. Asher, my best friend, says that what actually happens is that she turns me on, but it's not true.

She doesn't turn me on, no. With her things are a little more complex.

We're only a year apart, now she's almost twenty-five and I am twenty-six, but when I met her, we were two brats running around my grandparents' hotel and, even then, there were days when we couldn't even see each other.

ROSE LAKE

#1 When the Heavens Break and the Stars Fall

#2 When Winter Ends and We Fly Once Again

Montena, May 2022
Softcover, 140 x 215 mm, 480 pp

A new Cherry Chic saga where the events take place in a small Oregon town: the mythical Rose Lake. Love and the struggle to start over in a new country will mark the pages of this new saga.

#1 In Rose Lake there is a Free Library mailbox contest every Christmas and the neighbour with the most beautiful book box wins. There's an autumn festival that includes pumpkin auctions and axe chopping contests. There is only one restaurant. There is a lake, of course, surrounded by mountains and thick forests, and the population is barely more than a thousand people.

It is, according to Vera, the perfect village to make a comeback. According to Maia, it is a lost corner of the world, among the mountains of Oregon. According to Martin, it is the best place to be born in and to grow up. And according to Kellan... For him, Rose Lake is the most beautiful and painful place in the world.

#2 In 7 years a lot can happen.

Ashley Jones would tell that in 7 years one can learn everything about losing and getting the most vital in life. Brody Sanders would tell you that they are enough to plan the perfect revenge.

Maia Campbell would say that, with a lot of effort and a big family's support, you can rule your new life like no one imagined. And Kellan Hyland... Well, if you ask him, he would probably look at you through his sunglasses and would ignore you completely while bringing his attention back to the guitar.

YOUNG ADULT

THE TIME WE HAD

Montena, May 2023
Softcover with flaps, 150 x 215 mm, 480 pp

Liam and Grace: a story of love and memories impossible to forget. A new and essential standalone by Cherry Chic.

Liam O'Callaghan and Grace Fitzgerald are neighbors and best friends. A life united by the care of their respective farms and a unique love story that will be born with a pact: meet every two years to sign a contract and bury it inside a box under the Fairy Tree. Over time we will see how this relationship evolves, its good and bad moments, discovering new things together, what it means to share a whole life with another person, etc. In short, a song to love, friendship and unforgettable memories.

"Are you ready to sign?" he asked, taking a pen out of the pants
"First we have to read it aloud."
"What for?"
"So that we both agree."
"Of course we agree. We've done it together, Grace!" I gave him a dirty look and he sighed so hard that his black bangs fell on his eyes, he left them covered for a moment until he snorted and put his hair back up.
"Fine, read it."
"I'll read one part and you the other."
He was going to snort again, but I glared at him so badly that in the end he didn't. But, his blue eyes became smaller, as they always did when he was annoyed with me. I did not care. Actually, Liam had little patience and it wasn't my fault he never wanted to do things the right way. As we should. I opened the notebook on the first page and read:

We, Liam O'Callaghan and Grace Fitzgerald, promise to be friends for all of our lives. No matter how many times we fight or that Liam is a bit silly sometimes or that Grace is a tiny bit bossy. The important thing is that we love each other, and we will always, always, always find a way to get back together.
"Why am I 'a bit silly and you are only 'a tiny bit bossy'? You're very bossy, Grace."
"Nonsense. Read your part."
His brow wrinkled, but he yanked hard on the notebook that I had and read:
We sign this contract today, June 23, because tonight we will celebrate the summer solstice party and so we will know when to return to dig it up and sign again. We will sign every two years to show that best friends can be for life.
I nodded, pleased and proud of that part; I had come up with it. Actually, I wanted to sign every year, but Liam said no. That it was a lot of work to dig up a time capsule every year.

#1 All My Answers

#1 All My Doubts

#1 All My Hopes

Montena, May/June 2021 - January 2022
Softcover with flaps, 150 x 215 mm, 480 pp.

The sea, the passion and the right kind of romance all come together at a beach bar on the coast in this series.

#1 Cherry Chic's got all the ingredients for a highly addictive treat. And just like the best summer of your life, you won't want it to end. Three cousins, one summer, a house and beach bar overlooking the ocean. Felipe has lost his job, his girlfriend cheated on him with his best friend, and he's been dragged into living with his childish cousins. He's got one summer to get his life on track, and if that weren't enough, a girl who looks like she's got more problems than him just showed up, and she's irresistible... If life turns your world upside down... enjoy the view!

#2 In that same remote southern village, just a few meters away, our hero, Jorge de las Dunas, tries to survive life with his cousins, and he wonders if he'll ever be able to focus on the things he wants from life, rather than his family's needs. Tragically, our heroine never gets to make decisions, not even when they affect her own life. Meanwhile, our hero has spent his whole life making decisions and trying to do his best, to do what's right. She needs to recover her freedom. He needs to start fighting for the things he wants. She is plagued by questions. So is he, though he doesn't know it. One stormy night, with only the rain and the raging sea as witnesses, their lives cross paths. Our hero and heroine find one another. To learn more, you'll have to read on...

#3 The bad thing about growing up obsessed with Disney is that you get older. The good thing is that, as you grow up, you can choose to keep believing. Mario Dunes has spent his whole life preparing himself to find his ideal princess. In his imagination it's clear: she'll be sweet, giggly, brave and he'll like nothing better than to sit and watch a children's film together. Everything is going well, until she comes along and shows him that sometimes princesses wear black lipstick, have tattoos, are sharp-tongued and would rather stick pins in their eyes than watch a Disney film. This is a tale in which the princess does not want to be a princess and the prince is the one who is waiting for his true love. A story to dream, laugh and cry because, sometimes, happy endings require not one but many battles.

SPENCER

—So we're going from seeing each other a couple of times a year to living together," Jordan says as I drive.

—I feel the invasion.

—Nah, you know I don't care. But there are rules.

I raise an eyebrow and look away for a second to look at him. Jordan smiles sideways and I turn my attention to the road. "Rules," I repeat, he lets out an "uh-huh." As which?

—The guys on the team come whenever they feel like it. That son't be surprised to find that someone stays to sleep in the living room without warn.

—And the rule is...?

—Rule number one: my house, my friends' house. Right now you are an intruder, so they have more power than you under my roof. I guess it makes sense. It's so typical of him to want to set limits and having everything under control which doesn't really surprise me.

-Good. What else?

—Rule number two: see, hear, shut up. What happens in my group, it stays between us. We are not going to behave because you are here, I have promised in your name that you will be discreet.

"Rule number three and the most important," he continues, "No make out with my friends. I burst out laughing at that. "I mean it, and so seriously. He turns right on the next one.

"Are you worried that I'll hook up with one of your friends, anyway?"

"We are single," he explains to me, "we are university students and we just want to have a good time. And I know perfectly well that anyone would have a great time with you. I don't want drama. Because they are my best friends and you are part of me family. I don't want to be in the situation of having to choose anyone, you understand?"

NATE

Is this the chick Jordan was with last night? How the hell did I not notice her? I was so wasted that I didn't realize this girl was right next to me. Fuck. She seems not to care about my presence, as she leans forward and steals one of the donuts from the box. I find it impossible to stop looking while she takes a bite. She frowns.

-What?

None of us usually sleeps with girls after having sex, like that we avoid awkward moments on both sides, goodbyes or even the lucidity of the next morning. No chick that has ever slept with me and no one that has ever slept with Jordan. What does she have that he let her stay? She clears her throat and arches one of her sharp eyebrows again. I notice that I haven't responded. I remain silent, contemplating her. For a second, just one, I get nervous.

"I don't usually see my friends' dates...later," I answer. Although she looks at me as if she had just spoken Chinese. "Oh, the blowjobs you have to do so Jordan let you stay." Her donut stays halfway to her open mouth. Then she slowly closes her mouth and frowns at the same time.

-Excuse me?

I consider talking to her in sign language, but I think she has heard perfectly. I just put on my best innocent face,

—Hey, man, did you seriously just ask me if I give blowjobs?

"I haven't asked you, I've stated it. You are the first girl who I see that he sleeps with. Jordan appears in the kitchen at that very moment, yawning. "Spens, this is my best friend, Nate. And Nate... this is my stepsister, Spencer." My smile disappears in a flash. That's why it was familiar to me. Oh shit.

WITCHES KINGDOM 1: LONGING FOR SHADOWS

Alfaguara I&J, May 2023
Softcover with flaps, 150 x 215 mm, 360 pp

Here comes the romantic fantasy duology that will dazzle readers of Sarah J. Maas, Jennifer Armentrout and Shelby Mahurin.

Ovidia belongs to a secret society of witches. However, she is distrusted by many of her peers due to the nature of her powers. She has to keep them as quiet as possible. On the night of Samhain, Ovidia finds the leader of her society brutally murdered, and everyone believes that she is the culprit. Before she can stand trial, Noam, her greatest rival, rescues her. Perhaps, for Noam, she is not a rival... but something else.

- A YA romantic fantasy book, the genre that triumphs among teenagers right now.
- * A fast-paced novel, with a mystery plot and an enigmatic boy who will steal the hearts of readers.
- * An author with a history: self-published, acclaimed, published by PRHGE.

“The shadows always accompanied her. As strange as it might seem, she hadn't had a hard time getting used to it to them. After all, they were part of her being. They were born from her. They were strange and fascinating in her own way. They had always been three, and although at first she had wanted to avoid it so as not to feel more affection than she should have, she had named them. Ovidia opened the window a little, she felt the afternoon breeze of that September 23rd. That day was one of the most important dates for her people: the autumn equinox. The entire Sensible Society would be there that evening. The carriage turned sharply and Ovidia knew that they were entering on the path that led to the entrance of the Academy. The representatives of the Society would choose a Sensitive under twenty years old to make the Samhain speech next 31 October. It was an opportunity to give way to the new generations and so that the Sensible Society could see the speakers of each celebration as new possible representatives. Whoever led the Society was not someone chosen at random, but every ten years a vote was held so that there would be a representative of each type of witch: of the Night, of the Day, of the Earth, Gray and Seer. And then, decided which of them would be the leader. And even though she was a possible candidate, what continued to fill Ovidia's concern was not being able to control herself.

And suddenly, it seemed as if time had stopped for everyone in that room. And right at the entrance to the great hall, dressed in an opulent suit and followed by his parents, the boy who had broken her heart appeared in front of everyone with that familiar walk. Ovidia stood petrified, her old pain suffocating her again from the deepest. And a moment later, she felt that honey-toned look. The look of Noam Clearheart. It's happening again, she thought. —Feste... What is that? The small shadow did not turn, but Ovidia could sense it in her mind: **You know what it is, sister.** The shadow began to take shape until it looked almost human, like a girl of Ovidia's age, no more than fifteen or sixteen years-old. It was just like her other companion, all black, with undefined edges and two bright yellow spheres. Ovidia looked at her face. **Sister. A pleasure to meet you.** Ovidia's eyes widened, but she didn't notice. It moved. The vibration of her body seemed to be in accordance with the voice of that shadow, which seemed more like a slight echo within the stay. **I can end the cause of this pain, sister.** **It's true,** Feste answered for her, and turned around, hers golden eyes shining with the same tone as the new shadow. **We can do whatever you ask of us.** —Where you come from? —Ovidia whispered, getting up, and the shadow imitated her. Why do you appear just now? **Your pain has woken me up. You have called me and here I am.**

CHRONICLES OF HIRAIA 1: FORBIDDEN DESTINATION

Molino, October 2023

Softcover with flaps, 1150 x 215 mm, 352 pp

A romantic fantasy from one of the booktokers of the moment, perfect for fans of Jennifer L. Armentrout and Sarah J. Maas.

DREAMS

Everything was normal until the dreams started. From a magical world, inhabited by wonderful creatures and in which he, Derek, appears. Mysterious, attractive and with whom he shares a bond that not even she understands. But when dreams begin to take over her life, Alessa must make a decision: stay and face madness or travel to another world and find the boy her soul longs for.

REALITY

But Alessa's new world is not what she expected: there is evil and corruption. And then there's Derek, who is no longer the boy she fell in love with in her dreams. He is distant, cruel and leads the army of an unjust kingdom that segments its inhabitants by species and in which Alessa's humanity has no place.

“

I noticed the knot in my stomach again. I didn't want to talk to him but I couldn't keep it all to myself or blame my friends. I knew I could trust Darío. "When you left, I saw Derek at the door," I said, looking at my legs that kept moving nervously. I swear it was very real, more than other times. I started seeing him awake five days ago, after the dream of the Plaza. — He nodded his head-. When I'm sleepy, I start seeing visions of him. I saw him and the strange creatures. — Darío laughed at the description, but I continued with my gaze downcast. — When you left..., Darío, I can swear to you that he was really there. He was as real as anyone else. I do not know why. Maybe what's happening to me is more serious than I thought... I couldn't continue talking, I felt pressure in my chest which forced me to take a deep breath. Darío did not move, he waited for me to recover. —What's wrong with me? "Please, Darío," I murmured, raising the look for the first time. I don't want jokes or games. "Alessa," he murmured, "I want you to listen to me carefully, OK? —I nodded —. I'm not going to lie to you, I never have. His eyes were shining. He was being sincere.—So please, I need you to believe me, to open your mind and to deconstruct everything you have always thought was true for a... —he put his hand to his chin— different reality. —Okay, I'm listening to you. —You see, let's start from the basis that you have been taught that your world is the only one.

And I'm not talking about planets, I'm talking about realities," he clarified. "Do you know the theory of multiverse?" According to this theory there are infinite parallel universes. And it's true. I looked at him waiting for him to explain himself better. — If several universes coexist among themselves... could we pass from one to another? Yes we can. No one knows that these other universes exist, for obvious reasons. There is a prophecy that says that there are people who are born in the universe that does not belong to them. As you might guess, it is rare for this to happen to someone, it happens once every thousands of years. —And how do you know when someone doesn't belong to the world what corresponds to it? —I knew it right away. It took me a few seconds to react. I couldn't hide my surprise upon hearing the teacher's statement. —I started having dreams a long time ago, a long time ago. When I turned 21. —Weren't you 26 years old? —I've been 26 for a long time, Alessa. —What does that mean? —It means that you humans have to start considering that you are not the only ones in the universe. That there are people like you in other realities, but not only that. There is magic and darkness. There is also evil and corruption. But her dire warning went over my head. I could only think about one thing: «Everything I have always dreamed of is real. The magic is real.

HELLFRIEND

Molino, May 2023
Softcover with flaps, 140 x 213 mm, 384 pp

A romantic comedy about the ultimate bad boy: the devil himself

Girl meets boy. Boy tries to pick up girl. Girl tries to exorcise boy. Normal, wow. When Milena discovers that her neighbor Bel is a demon, her plan of action is clear: she must return him to Hell to rid humanity of his evil influence. But Bel isn't just devilishly handsome, he's also interesting, passionate, rebellious, and willing to offer her a deal that's hard to refuse. So how not to fall into temptation? Bel, on the other hand, sees in Milena the perfect opportunity not to return to hell, as long as she decides to help him. And although the girl seems immune to her neighbor's charms, he draws on six millennia of experience in the art of seduction; so it is impossible for you to lose in this game of deception. What's the worst that could happen? After all, demons don't fall in love, do they?

“BEL

Have you ever tried to tell another person your whole life? Maybe not all, just the important events. Would you know where to start? Now, imagine that instead of almost a couple of decades (being very optimistic), you have been around for more than six millennia. Imagine, too, that whether whoever listens offers you their help depends on this conversation.

I must choose my words carefully, so this is what I explain to Milena.

I was created in the year 4004 BC, a wonderful initiative for which I am still grateful today and for which I am sure God repents.

Like any other demon, I started as an angel and lived during a season in Heaven. Do you want to know how it is? Boring. It's the problem with perfection, it cannot be enjoyed by the lack of contrast. The endless gardens lack winter; the immaculate buildings, cracks; the clouds; rain. To sum it up: God created Hell to be able to kick our ass as far as possible. There, Lucifer, instead of learning her lesson, continued to be determined to mess it up. Time after time. She no longer talks about usurping the place of God (she loves to rule Hell from that terrifying throne that she had built for her), now what obsesses her is to destroy humanity.

Once these points are established, let's get to the important thing: why am I here?

To tell you the truth, they haven't given me many details. Three months ago, Gabriel went down to Hell and, after complaining for hours from the smell of sulphur (thanks to which I verified that he's still annoying), he proposed a deal: spend half a year on Earth.

We used to come a lot. We adopted human forms (some, like Beelzebub's weirdo, they preferred to resemble a furry full of steroids) and we whispered little things in your ears. We were allowed to do this because you have free will and, before the thing got out of hand; they figured you could use a certain dose of temptation to celebrate when you chose the right path.

Until what happened in Sodom and Gomorrah, then the temptation got out of hand. It was me, has anyone told you? The Best party mankind has ever seen, and I'm including Tomorrowland. A wonderful mess.

The deal that they have offered me is the following: after the test period, I will be subjected to a trial to assess how I have behaved. If I don't mess it up too much, I will be acquitted and I will be able to go back to Heaven. And this is what I tell Milena.

What I don't tell her is that, before Mammon left Hell, Lucifer ordered us to get in contact with her once we were on Earth. I don't tell her either that we have done it and that she has demanded that we take advantage of this opportunity to destroy people, and we better think of something decent. She has threatened to torture us for a couple hundred years if we fail.

The last thing I leave out is that there's one more demon in town: Beelzebub.

"We should talk about what happened yesterday," I propose. "About what happened in your bed, Félix," I clarify. —Do you remember what you did? —She asks me, crossing her arms. —Yes, I remember everything. —Because you did? —When asking the question she presses her jaw, expect the worst. —Do you want me to be honest with you? —I don't expect anything else. I've been thinking all morning about how to tell him what I felt last night, I walked down the street talking to myself as if I were crazy rehearsing a monologue that I don't remember right now not a single word. —I was drunk, seeing you made me horny and when you put me in bed, an uncontrollable desire appeared in me to... —I pause, I don't even know what I had. Desire-. From kissing you, I guess. Félix closes his eyes and lets out a long sigh that destabilizes me, I don't know what he's thinking and I'd love to know. —Do you regret it? —He asks concisely. —Don't know. —If I played along with you yesterday, would you have liked it? —I don't know, Felix. —By answering so hesitantly, I notice how he loses his nerve a little. He wants clear answers and I am not able to give him any.

Do you want to know? —His eyes give me a sharp look, full of desire and lust. Maybe it's that look that makes me It's disconcerting, because I don't know what he means by his question. Félix approaches me and I get up from the bench to be at his level. --Do you want to check if you would regret it or not? His hand grabs my shirt to bring me even closer to him, so much so that his lips are a breath away from mine. His eyes make the same journey a couple of times: they land on mine and go down to my mouth. Right now I feel like I'm at his mercy, but not in a bad way: I know I could stop this situation, I know I could leave at any moment... "I'm going to kiss you, Romeo," he announces. And I know he says it because he wants to ask my permission, because he wants to tell me what he is going to do. do in case I want to turn back. I know he's controlling to the beast inside him and I don't want him to control it anymore. "Do it," he whispered. And he does it. He does it with force, showing me the desire he had to eat my mouth His juicy lips absorb mine and his tongue slides inside my mouth, making me shudder completely. Do you want more? —He asks, suffocated. Our breasts rise and they go down at the same time, we are both excited and I don't think it will be me whoever stops this. "Yes," I answer, nodding.

And there, on an ordinary night, she meets Gael, with his blond hair, deep dimples, and a kind smile.

SYNOPSIS

Nisa and Jose are two young people who live on the island of La Palma. Nisa, tired of her family, spends hours in an empty tourist apartment where she sneaks in every afternoon. One day, Jose, the owner's son, discovers her and becomes fascinated with her. By the fireside, a passionate and turbulent relationship begins.

The tragic eruption of the La Palma volcano and their family problems lead the couple to Madrid, where their love will face new questions: what truly binds them together? Can they move on after losing everything? How many times can love rise from the ashes before it goes out completely?

A millennial love story by the screenwriters of the Netflix hit: *The Time I Give You*.

Far from 'happily ever after,' in the style of Sally Rooney.

Tender, melancholic, and emotional, it tells the strength and fragility of love relationships: what can destroy them or how they survive the toughest tests.

There are loves that burn, that explode, that sweep everything away, that always burn like the first day.

These were Ava and Hugo's plans, but when they looked into each other's eyes and glimpsed the same horizon, one capable of turning the sea calm and changing all their goals, they knew that staying afloat was just a matter of knowing how to swim against the current. Will Ava and Hugo let destiny, the waves and the sea draw their path? Will they find a board on which to sail other seas together? Will they reach the port they long for?

DO NOT FALL IN LOVE WITH BLAKE ANDERSON

Montena
November 2023
288 pp

When Raylee proposes to Blake for a night of no-strings-attached sex, she doesn't expect it to be so difficult not to fall in love with him. The Anderson Brothers bilogy comes to Montena, the sexiest and funniest story of the new queen of New Adult, Victoria Vílchez.

«Meeting Blake again at my brother's wedding is inevitable, but what I didn't expect is having to share with him the days leading up to the wedding in an idyllic resort in California. He has never seen me as anything other than a child, almost like a little sister. But that's going to change. I am more determined than ever to have a passionate affair with him; without ties, without emotions or feelings. Now, I just have to convince him to accept my proposal. A wedding, an indecent offer and only one rule to follow: don't fall in love with Blake Anderson.

“Come on, it's okay,” I whisper in his ear, while I review the line of her cheekbone with his thumb. She has devilish skin gentle-. You can tell me anything. “I've never had an orgasm,” she spits out hastily. Kind of like never having an orgasm. It takes my mind a few seconds to process the information; my body, on the other hand, goes free again. -That?! —I ask, convinced that I haven't understood her all well. —That I have never cum. Somehow I manage to choke on my own saliva. “It's... No...” “Fuck, this is surreal.” You haven't cum. She nods; Although she seems embarrassed, she doesn't look away neither does she separate herself from me. —You have a lot of experience, don't you? —She continues, since my ability to form coherent sentences seems to have gone on vacation. I was hoping you could help me. Just tonight” She continues, becoming emboldened. Nobody is going to find out, and tomorrow we can act as if nothing had happened. It has to be a joke. Or maybe it's one of those dreams. It can't be that Raylee is so happily offering me no-strings-attached sex. Although I still can't believe what is happening, my body is delighted with the offer, even more than a while ago. I have to go to my bungalow and pretend this conversation hasn't happened. That is what I have to do. Until she approaches and makes a little noise. A-fucking-moan.

The residents of Fabel want to put an end to the dictator, the Fairy Godmother, who summoned the haze and made everyone forget their past. The Wolf—a tall, dark man with intense yellow eyes—decides to tempt Red with the task of finishing off the tyrant herself. A voyage that morphs the visceral hatred between Red and the Wolf into a tension on the cusp of exploding into passion.

Alma is sixteen years old, with brown hair, a big mouth and thin lips. She has a closet full of sporty clothes and an already-dated cell phone. She parties with her two best friends—Greta and Nata—a handful of acquaintances, a casual fling and the memory of a night she'd prefer to forget. Of everything Alma possesses, the most important is inside the black backpack she carries with her which will change her life in an instant.

She walks determinedly toward the entrance of the private high school she used to attend. She crosses the first threshold and stops. She pulls a sheet from her bag, unfurls it and pins the corners to a metal fence. Who does the message written in red letters across the sheet accuse? If what it says is true, the graffiti that has appeared on the walls and doors of the bathroom would take on a different meaning. Dozens of mobile phones film the scene through the windows of the classrooms. The high school headteacher observes Alma from the principal's office. "Should I call her parents?" She asks. "No," the principal answers. "This is too much now. I'm going to call the police." CAREFUL. A RAPIST IS HIDDEN INSIDE HERE, the large blood-colored letters proclaim. Alma raises her chin defiantly. She hopes no one can see that she's trembling.
